

Muay Thai Study College

Master of Art Program in Muay Thai Study

Muban Chombung Rajabhat University aims to develop Muay Thai for inherit and promote to Thai youths and foreigner to show strength of fighting art and support to teach in high vacation.

Muay Thai is both scientific and art. In the past it was used in fighting to protect Thailand from enemies. By practicing Muay Thai, the learners become more patient, diligent, grateful, and harmonious.

Teaching of Muay Thai aims to encourage learners to learn to fight with Muay Thai; learn to think, to listen and to solve a problem before learning to fight.

Aim of the curriculum...

1. To produce graduates who are able to instruct Muay Thai in schools and at the same time carry it on to world reputation
2. To study and research knowledge about Muay Thai, a kind of Thai wisdom, and bring it to a higher level of occupation and also integrate it with Thai culture in order to develop Thailand to be a civilized country.
3. To produce graduates who are able to apply knowledge about Thailand and use it in their careers efficiently, effectively and productively
